Gartenhütte Westansicht M1:100

From 2024, in addition to the regular work on the site, there will be many very specific opportunities to help with the construction of the centre:

- **From March 2024** on construction work will be carried out on the temporary Dhamma Hall (former "garden hut"): insulating the walls, installing heating, installing escape doors, adding new lobbies, which will significantly increase the interior space. ½ year is scheduled for this Dhamma service.
- **From summer / autumn 2024** on it may be possible to start work on the timber construction of the third residential building, provided the foundations have already been laid by then.

We are looking especially for experienced craftsmen and -women, but other motivated helpers are also very welcome!

If you would like to support the team as a long-term server, you will find detailed information and the registration form on the homepage www.dhamma-mudita.at. You must first log in as an old student using the usual login, then you can access the information about long-term service either via the menu or via the following link: <https://www.dhamma-mudita.at/en/langzeitsevice/>

If you do not have the opportunity to come for a longer period of time, but would like to support the team for shorter periods, you will find the relevant information after logging in as described above at <https://www.dhamma-mudita.at/en/kurzzeitsevice/>.
